CRU Molybdenum Market Outlook

Wednesday, 13 November 2024 16:15 (25 minutes)

Samuel Hayes will present CRU's view on the molybdenum market and our outlook for the commodity. In this presentation we will examine the current state and size of the market, recent and current regional trends in mine production and demand. We will then discuss our expectations for the medium-term forecast for supply, demand and benchmark prices out to 2029, and highlight the risks to our outlook.
